

# Contents

András Ambrus, András Szabadfalvi, Ádám Körösi and Adrienn Patalenszki: Mark-recapture population estimation of the highly endangered noctuid moth <i>Arytrura musculus</i> . . . . .	9
József Arany: Elemental contents in flour beetles ( <i>Tenebrio molitor</i> L.) during the life cycle . . . . .	17
Bence Bolla and Zoltán Filotás: Nature conservation and forest management of the Great Bugac Forest. . . . .	23
Zsuzsanna Debnár: Edge effects in oak forest – forest edge – grassland complex for ground-dwelling beetles (Coleoptera: Carabidae and Staphylinidae) . . . .	31
Bulesú Dékány, Szilvia Kövér and Gergely Babocsay: Environmental factors influencing distribution and demographic structures of populations of the wall lizard ( <i>Podarcis muralis</i> ) in an urban environment . . . . .	40
Anna Dolezsai, Péter Sály, Péter Takács and Tibor Erős: A proposition to establish a conservation area network for protecting fish assemblages in Hungary	50
János Dudás, Anett Endrédi, Anikó Veres and János Nagy: Ex-situ conservation of <i>Comarum palustre</i> in Hungary. . . . .	63
Veronika Fabók, Eszter Kovács and Ágnes Kalóczkai: Revealing stakeholder perceptions in a human- wildlife conflict during a public participation process in the Jászság SPA . . . . .	75
Tibor István Fuisz, Zoltán Vas, Ádám Körösi, Ádám Pereszlényi, Katalin Túri, Sándor Urbán and Katalin Karáth: Conservation and research at the largest European Bee-eater ( <i>Merops apiaster</i> Linnaeus, 1758) colony of Hungary . .	86
Barbara Győri-Koósz, Krisztián Katona and Sándor Faragó: Seasonal shift in the diet of the European ground squirrel ( <i>Spermophilus citellus</i> ) in mowed or grazed dry grasslands. . . . .	96
Ágnes Kalóczkai, György Pataki, Eszter Kelemen, Eszter Kovács, and Veronika Fabók: The factors and dynamics of land-use conflicts. . . . .	107
Krisztián Katona, Ádám Fehér and László Szemethy: From the reduction of damage causing game populations to the multilateral management of herbivore-vegetation systems . . . . .	115

Eszter Kelemen, Orsolya Lazányi, Ildikó Arany, Réka Aszalós, Györgyi Bela, Bálint Czúcz, Ágnes Kalóczkai, Miklós Kertész, Boldizsár Megyesi and György Pataki: Sociocultural valuation of ecosystem services provided by the Kiskunság sand ridge region . . . . .	129
Márton Kiss, Ágnes Takács, Réka Pogácsás, Lilla Berkes and Ágnes Gulyás: Evaluation of climate-related ecosystem services of urban trees in Szeged (Hungary) . . . . .	138
Tamás Kondor, Péter Estók, Péter Szentgyörgyi, Krisztina Szőke and Tamás Cserkész: The status of Southern birch mouse in the Hernád valley . . . . .	150
Eszter Kovács and Györgyi Bela: Social and economic importance of the conservation of ecosystems and biodiversity illustrated with some examples. 159	
Tamás Miglécz, Ádám Donkó, Orsolya Valkó, Balázs Deák, Péter Török, András Kelemen, Dóra Drexler and Béla Tóthmérész: Experiences about vineyard cover crop seed mixtures . . . . .	169
Szabolcs Mizser, Bence Tajthi, Zsuzsanna Debnár and Dávid D.Nagy: The effects of non-native plantations on ground-dwelling spider (Araneae) and rove beetle (Coleoptera: Staphylinidae) assemblages . . . . .	177
Dávid D. Nagy and Szabolcs Mizser: Response of rove beetles to urbanization in a forested area of East-Hungary . . . . .	185
Leila Nagy and Szabolcs Mizser: Toxic element content in isopods along an urbanization gradient . . . . .	193
Stephanie Orf, Tamás J. Urszán, Attila Hettyey, Gergely Nagy and Gábor Herczeg: Effect of water level reduction on the development of wood frog ( <i>Rana dalmatina</i> ) tadpoles . . . . .	202
Adrienn Patalenszki, Ádám Körösi, András Ambrus, Sándor Csósz and Ágnes Szindekovics: Different demography and habitat use in sympatric populations of <i>Maculinea teleius</i> and <i>Maculinea nausithous</i> . . . . .	214
Erzsébet Peti, Gábor Málnási Csizmadia, Imre Oláh, Judit Schellenberger, Katalin Török, Krisztián Halász and Borbála Baktay: Seed collecting and storing results and preliminary seed viability results and methods of Pannon Seed Bank project (2010–2014) . . . . .	231
József Marticsek, Dániel Molnár, Katalin Mozsgai, László Podmaniczky, Julianna Skutai and Péter Tóth: Development opportunities of the Hungarian agri-environmental payment system . . . . .	242

Mátyás Prommer, Márton Horváth and János Bagyura: How sufficient is the Natura 2000 network to conserve highly dispersive species? . . . . .	252
Zoltán Tamás Samu, Judit Bódis and Anna Varga: Past, present and future of a wood-pasture in Inner Somogy . . . . .	261
Anikó Seres, Zsolt Tóth, Erzsébet Hornung, Anita Pörneki, Judit Szakálas, Péter István Nagy, Gergely Boros, Gábor Ónodi and György Kröel-Dulay: Methodological questions of organic matter decomposition in the soil of a protected sand grassland . . . . .	270
Katalin Sólyom: Bird predation on Rose bedeguar gall ( <i>Diplolepis rosae</i> ) . . . . .	280
László Somay, Réka Ádám and Gergely Boros: Study of the role of dung beetles in recycling dung at Bugac, Hungary . . . . .	292
Judit Szakálas, György Kröel-Dulay, Ivett Kerekes, Anikó Seres, Ónodi Gábor and Péter Nagy: Effects of extreme drought manipulation on free-living nematode densities . . . . .	300
Szabolcs Szanyi, Antal Nagy, István A. Rácz and Zoltán Varga: Climate- and habitat dependent differences in wing –dimorphism in Roesels’ bushcricket ( <i>Metrioptera roeselii</i> , Ensifera: Tettigonoidea) . . . . .	310
Viktor Szigeti, Andrea Harnos, Ádám Körösi, Marcell Bella and János Kis: Habitat use, larval host-plant and nectar-plant distribution in the Clouded Apollo butterfly <i>Parnassius mnemosyne</i> . . . . .	320
Bence Tajthi: Effect of urbanization on vegetation-dwelling spiders in the Nagyerdő Forest, in Debrecen City, Hungary . . . . .	329
Márton Takács, Ákos Malatinszky and Mravcsik Zoltán: The thickest trees of Fejér County . . . . .	339
Eszter Tanács: Classification of forest stands according to structure heterogeneity using aerial photography and object-based methods . . . . .	351
Zsolt Tóth, Erzsébet Hornung, Sarel Cilliers, Miklós Dombos, Johan Kotze, Heikki Setälä, Stephanie A. Yarwood, Ian D. Yesilonis, Richard V. Pouyat and Katalin Szlávecz: Preliminary results about analysis of decomposition efficiency in different quality of urban soils (GLUSEEN, Budapest) . . . . .	361
Nikolett Ujhegyi, Zsolt Biró, László Patkó, Norbert Keller and László Szemethy: The impact of habitat improvement and predator control on the population dynamics of European brown hare ( <i>Lepus europaeus</i> ) . . . . .	372
Orsolya Valkó, Katalin Tóth and Balázs Deák: Grassland recovery on soil-filled drainage channels in the Hortobágy National Park . . . . .	382

Dóra Vaskor, Zsolt Józán, Attila Lengyel and Miklós Sárospataki: Wild bee communities and plant-pollinator interactions of semi-natural grasslands and fallows in Cserhát, Hungary . . . . .	394
Diana Vona-Túri, Tünde Szmatona-Túri and Balázs Kiss: Ecologic evaluation and diversity changes of terrestrial isopod assemblages (Crustacea: Isopoda: Oniscidea) on Hungarian highway margins . . . . .	406
